INSTITUTIONAL
The British School (New Delhi) by Morphogenesis

The design of this 310,000 sq ft project found inspiration in the school's tagline – An international education with an Indian soul. Semi-enclosed breakout spaces are liberally scattered around the school and are constantly being transformed in the way they are occupied.

INSTITUTIONAL
Indoor Sports Complex (Greater Noida) by INI Design Studio

The 116,000 sq ft project interweaves scale and modernity with flexibility of space and vibrancy of form. A balance between structure and interior space design is brought out by vivacious use of colours and bold graphics juxtaposed with the pronounced muscular form of the building.

Woxsen School of Business & Woxsen School of Arts & Design (Hyderabad) by DesignHaus Solutions

This ambitious project, of almost 200 acre, stretches its domain to a barrier-free environment, self-sustainability and green design. The campus architecture is minimalistic yet bold with exposed concrete as the prima facie material.
