

GREEN BUILDINGS OF INDIA COFFEE TABLE BOOK

GREEN BUILDINGS OF INDIA VOLUME II (OCTOBER 2016)

Ar. Jayesh Hariyani is playing leadership role in area of Sustainability. Ar. Jayesh has been instrumental in research and development of The Indian Green Building Council's (IGBC) green building content and IGBC's green ratings that are used throughout India including this publication / coffee table book (as chair of research and publication team) to promote sustainability and interdisciplinary collaboration.

Addressing National Priorities by Rating System

This book series (launched in 2014 – limited edition biennial publication) captures Indian Green Building Council's association with selective green-rated projects/case studies spread across the country. The sustainability initiatives in these projects inspire widespread adoption of green built environment by various stakeholders of the real estate community. This has facilitated India to emerge as a global leader on the world map of green buildings and green infrastructure.

Each Volume primarily captures the following:

- High resolution photographs of the salient features like passive architectural design, innovative use of recycled and salvaged materials, landscaping, etc., Project team involved like the owner, consultant, architect, and others
- Tangible (energy and water savings) and intangible (health and comfort) benefits
- Experience of the occupants
