

# IGBC GREEN NEW AND EXISTING CITIES

**National Impact of this rating  
(2021 Data)**

**Total No. of Green Cities: 26**

Ar. Jayesh Hariyani is playing leadership role in area of Sustainability. Ar. Jayesh has been instrumental in research and development of The Indian Green Building Council's (IGBC) green building content and IGBC's green ratings that are used throughout India including this Green Cities Rating (as co-chair of the technical committee) to promote sustainability and interdisciplinary collaboration.

## Addressing National Priorities by Rating System

This rating system is designed to addresses many important National priorities including improving the urban facilities and infrastructure through the development of 100 Smart Cities and 500 AMRUT Cities with population above 100000. It is in this context, this Rating System aims to respond effectively to the big challenges imposed by growing urbanisation, through an approach that embraces sustainable urban development principles into city planning framework. Using this rating system cities are encouraged to convert environmental problems into opportunities and appropriate solutions. It seeks at promoting an eco-friendly city that balances social, economic, and environmental dimensions, as well as good urban governance as its foundation. One of the main objectives is to enable the development authorities and developers to apply green concepts and planning principles, to reduce environmental impacts that are measurable and improve the overall quality of life.
